

### Seek to Boost Membership of Chamber Board

A special meeting of the Torrance Chamber of Commerce membership to consider an amendment to the by-laws has been scheduled for Nov. 15. It was announced here this morning by President Paul Loranger.

Scheduled to be considered by the members of the Chamber is a by-law amendment which would increase the group's board of directors from 15 to 21.

The six additional members of the board would be appointed each year to serve one year terms. Five of the additional members would be appointed by the board of directors, the sixth to be a member of the Torrance City Council and named by the Council as its representative.

### Nurserymen Offer Grass Sowing Rules

The most important thing in planting grass is to secure the proper selection of seed, says the California Association of Nurserymen.

Buyers should be sure they get only straight or mixed seed of highest quality, they say. Use of a spreader is also preferable to hand distribution, they urge.

The method of planting grass the nurserymen recommend is as follows:

After spreading seed, rake the area lightly to insure thorough contact of the seed with the soil. Next the seedbed should be mulched with peat moss to prevent drying out. Before watering roll the surface with a light-weight roller to press the seed against the soil and hasten germination.

Watering should now be a twice daily procedure. Don't water excessively, however, for too much moisture can result in damping off, or rotting of the seedlings. Use a fine spray to avoid disturbing the mulch covering and stop before puddles appear.

The seedlings should be up in four to 10 days. With a plank laid on the lawn to prevent stepping directly on the seedbed, you can pull up any weeds that have come up with the young grass. Mow your new lawn when the grass blades are two inches high, or just beginning to bend over at the tips. Use a very sharp mower.

As weeks and months go by, your lawn will grow and thicken to become an enjoyable area for relaxation and entertaining—well worth the care and effort put into establishing it.

### Increased Homework Burden Essential Now School Says

"Because of double sessions now in force at the high school, it has become necessary for the administration and faculty to establish a policy that concentrates on home study habits for the students," Bruce Wagner, high school principal, said today.

In a message to parents reminding them that double sessions have reduced the number of hours that all pupils actually are at school, the administrator said that cooperation of the parents is vital to insure that all students get the most out of their school hours.

"In every academic subject the students can expect a reasonable amount of homework that will require study for an hour or two a day when they are home," he reported. "Getting some value from their out-of-school hours is or should be important to students."

Particularly those who plan to attend college should get in the

and drama activities, and student government on their own time, before or after regular school classes.

"Torrance High School students can turn the present situation into an asset if they so desire," the principal concluded. "It is felt that cooperation from the home in following through in regular class periods. Students now participate in sports, music

### Coast Guard Exams Slated

Competitive examinations for appointments as cadets in the U.S. Coast Guard Academy will be held on Feb. 28 and Mar. 1, 1955, Congressman Cecil R. King has announced.

Complete information on admission requirements can be obtained by writing King's office for "Your Career for Tomorrow," a descriptive booklet.

Candidates for appointment must be single, between 17 and 21 years old, a high school graduate, and in good physical shape. The Coast Guard Academy is at New London, Conn.
